Art Unit: 3682

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hibbler et al. Note that Hibbler discloses the preload of the bearings as being adjusted by the threaded ring in the threads 30 of the housing 24. This inherently anticipates the threaded adjustment ring being loosened and tightened to increase float and preload, respectively.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
